Subject: Microsoft Antitrust Settlement

To Whomever This May Concern:

The settlement proposed by the Federal Government will not help protect consumers. The agreement is impotent, and it is not in the public's best interest. It contains nothing that will actually alter Microsoft's predatory practices, or improve the economy in any way. The only thing that will stop Microsoft from behaving the way it does is a breakup, or some de-valuing of the Windows operating system.

Best Regards,

Ken Wolfe
